Dear Friends and Colleagues,

We are delighted to invite you to join us for the Annual Meeting of the European Competence Network on Mastocytosis (ECNM) held from September 15th to 17th in Basel, Switzerland, and celebrate the 20th anniversary of the ECNM.

The ECNM was founded in 2002 as the pivotal initiative for the cooperation of interdisciplinary clinical and scientific experts, specialized institutions and patient organizations on the subject of mastocytosis and other mast cell diseases in Europe. The network sustains ongoing collaboration with crucial partners in the USA and other non-European countries.

Our annual meetings provide the most comprehensive insight into the scientific developments and state-of-the-art clinical practice in mastocytosis and mast cell diseases. We hope you will join us live for the ECNM Meeting 2022 allowing to meet in person once more, to sharing knowledge, and discussing the latest advances in the interdisciplinary field of mastocytosis and other mast cell diseases.

The registration has officially opened, and we look forward very much to seeing you in Basel!

Yours sincerely,

The Board of the ECNM
